2020 Letter from the Editor-in-Chief

Warmly welcome to the 11th volume of *Journal of Wireless Mobile Networks, Ubiquitous Computing, and Dependable Applications* (JoWUA). It is my privilege and honor to start the new volume now after successfully concluding the 10th volume the last year.

Looking back on 2019, JoWUA has taken a step forward with the publication of 20 high-quality papers. Most of all, according to Scopus, JoWUA made a big achievment by being ranked into Q2 in the fields of *Computer Networks and Communications*, *Computer Science Applications*, and *Computer Science (miscellaneous)* together with 2.382 Cites / Doc (2 years). Clearly, this can be a powerful driving force for JoWUA to not only evolve into the top journal, but also belong to Clarivate's Journal Citation Report (JCR) and Science Citation Expanded (SCIE).

In 2020, we aim at increasing the volume size by publishing more papers to satisfy Clarivate's suggestion. More importantly, we will focus on seeking high-quality papers which can serve as a signature article in the areas of wireless mobile networks, ubiquitous computing, and dependable applications as well as inviting top researchers to publish insightful tutorials or surveys.

Last but not least, my sincere thanks go to the authors of the 5 papers included in this issue and their reviewers.

Dr. Ilsun YOU[1], FIET
Editor-in-Chief
March 2020

Author Biography

Ilsun YOU received the MS and PhD degrees in computer science from Dankook University, Seoul, Korea, in 1997 and 2002, respectively. He received the second PhD degree from Kyushu University, Japan, in 2012. Now, he is an associate professor at Department of Information Security Engineering, Soonchunhyang University. He has served or is currently serving as a General Chair or a Program Chair of international conferences and workshops such as WISA'19-20, MobiSec'16-19, and so forth. Dr. YOU is the EiC of Journal of Wireless Mobile Networks, Ubiquitous Computing, and Dependable Applications (JoWUA) as well as Journal of Internet Services and Information Security (JISIS). He is in the Editorial Board for Information Sciences (INS), Journal of Network and Computer Applications (JNCA), IEEE Access, etc. Especially, he has focused on 5G/6G security, security for wireless networks & mobile internet, IoT security and so forth while publishing more than 180 papers in these areas. He is a Fellow of the IET and a Senior member of the IEEE.
